

80. (Amended) The method of claim 68, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

95. (Amended) The method of claim 83, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

110. (Amended) The method of claim 98, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

125. (Amended) The method of claim 113, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

140. (Amended) The method of claim 128, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information

communicator, personal digital [assistance] assistant, information appliance, and system controller.

155. (Amended) The method of claim 143, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

170. (Amended) The method of claim 158, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

185. (Amended) The method of claim 173, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

200. (Amended) The method of claim 188, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

215. (Amended) The method of claim 203, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

230. (Amended) The method of claim 218, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

245. (Amended) The method of claim 233, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

260. (Amended) The method of claim 248, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

275. (Amended) The method of claim 263, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information

communicator, personal digital [assistance] assistant, information appliance, and system controller.

290. (Amended) The method of claim 278, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

305. (Amended) The method of claim 293, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

320. (Amended) The method of claim 308, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

335. (Amended) The method of claim 323, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

350. (Amended) The method of claim 338, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

365. (Amended) The method of claim 353, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

380. (Amended) The method of claim 368, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

395. (Amended) The method of claim 383, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

410. (Amended) The method of claim 398, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information

communicator, personal digital [assistance] assistant, information appliance, and system controller.

425. (Amended) The method of claim 413, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

441. (Amended) The method of claim 429, wherein the user station comprises at least one of a computer, cable television controller, video game player, information kiosk, wired personal communicator, wireless personal communicator, personal information communicator, personal digital [assistance] assistant, information appliance, and system controller.

REMARKS

After receiving the Notice of Allowance dated September 13, 2002 (Paper No. 13), the application was reviewed for errors and inconsistencies.

During this review, it was noted that the numeral **50** appeared in both of Figs. 1 and 2, with respect to a vendor link **50** in Fig. 1 and a flowchart element **50** in Fig. 2. In the attached formal drawings, the flowchart element **50** has been re-labeled as element **51**. The attached substitute page of the specification, i.e., page 24, corrects the only appearance of the numeral 50 in connection with Fig. 2. In short, our final review of the Formal Drawings located a previously unrecognized informality, which informality has been corrected in both
